

RECOVERY® SA with Nutricol®

www.recovery.com

Mobility Formula for Pets (SA/small animals)

Action: Improves healing and helps to halt damage
Potent pain relief
Regulates inflammation and spasm
Improves coat, sheen and flexibility
Assists with breathing issues
Improves cell sensitivity to insulin

Is Recovery®SA safe?

When developing products, Purica makes effectiveness and safety the primary concerns. Recovery®SA is a natural food-based non-drug medicine and has an ingredient profile taken from foods (green tea) that are consumed on a daily basis for prolonged periods of time by people and animals throughout the world and are considered very safe.

RECOVERY® EQ Extra-Strength

www.recovery.com

with Nutricol® and hyaluronic acid

This formula is exactly the same as Recovery®EQ with the addition of 100 mg of **hyaluronic acid** (HA) per scoop.

Additional Reported Main Uses:

Increases agility, flexibility
Excellent for Athletic Horses
Improves Equine Endurance
Improves Breathing

Nutricol® is a proprietary bioflavonoid complex containing epigallocatechin gallate (EGCG), theaflavin, proanthocyanidins and resveratrol from *Vitis vinifera* (grape) and *Camellia sinensis* (green tea).
