

In addition to formal clinical herbalist training at Douglas College, B.C. and the Southwest School of Botanical Medicine in Arizona, Michelle of Sky Island Herbals has a certificate in Nutritional Symptomatology from the Canadian School of Natural Nutrition. In 2006, she completed her studies at the West Coast Institute of Aromatherapy and is a recognized Aromatherapist. Michelle

prepares her own plant medicines from ethically wildcrafted and certified organically grown plants obtained from reputable suppliers then creates essential oil formulas specific to the needs of her clients. \*These products are not recommended for use on puppies younger than 10 weeks. Essential oils are not recommended for use on cats.

**Skin & Paw Potion** A safe and gentle blend especially formulated to help ease inflamed and irritated skin and paw conditions, reduce itching and speed the healing process. Use to relieve itching, dry skin or paw pads prone to infection, inflammation and for minor scrapes, cuts and burns.

**Skeeter Beater** A safe and effective blend of pure essential oils. Shake well and spray as needed directly or spray on a fabric collar or bandana. \*Please use with caution on dogs that have epilepsy or seizures. Although there is no clear evidence, essential oil of Rosemary could affect these animals.

**Fear-Less** To help soothe the symptoms of fear, anxiety, stress and nervous tension in dogs. Shake well. Spray on hands and massage directly into fur around chest and neck or apply to collar or spray on cotton ball and attach to cage or kennel out of reach of dog.

**Have Dog-Will Travel** A natural and safe way to help dogs who are prone to motion sickness and nausea.

**Feline Tranquility** A blend of hydrosols that are safe for cats and will help soothe the symptoms of fear, anxiety & stress and nervous tension.

**Calm Dog Herbal Support** Formulated to help improve the occasional symptoms of fear, anxiety, restlessness, nervousness and excitability caused by loud noises, separation and travel. Safe to use in combination with Fear-Less calming spray for dogs. Not for use with cats or with puppies younger than six months. Not for use with dogs predisposed or with existing liver disease due to the inclusion of Skullcap.

**Bug Beater** is a non-toxic blend of diatomaceous earth and montmorillonite clay that is deadly to any insect and completely harmless to animals, fish, fowl or food. For internal use.

**Shady Dog, 60 ml** A non-greasy, broad-spectrum natural sunblock lotion to help protect dog noses from UV rays.
